Work Experience

October 2022–Present   **ESL Teacher**   **Idiomas Santa Ana**
          Valladolid, Spain

- Assessed and adapted digital learning strategies to meet diverse student needs.
- Utilized various digital platforms (Zoom, Bamboozle, Cambridge LMS) to deliver engaging lessons.
- Structured exam preparation programs (A2–C2), integrating online resources and automation tools.
- Tracked student progress through data-driven quarterly reports, analyzing learning patterns and engagement metrics.

September 2021–June 2022   **ESL Teacher**   **The School**
          Aranda de Duero, Spain

- Collaborated in team meetings, projects and peer mentorship programs.
- Integrated interactive e-learning tools to enhance student engagement and language acquisition.
- Adapted quickly to remote learning during COVID, utilizing virtual classrooms, automation tools to maintain educational continuity.

January 2015–July 2021   **English Professor**   **Manuela Beltran University**
          Bogota, Colombia

- Delivered both face-to-face and online courses, integrating educational technologies to enhance outcomes.
- Led weekly team meetings to assign project-prioritized tasks, ensuring efficient workload distribution and goal alignment.
- Collaborated with cross-functional faculty teams to implement a bilingual curriculum, contributing to course design and curriculum adaptation.
- Utilized tech-educational tools, including CANVAS and video recording software for remote learning during COVID, supporting a government-backed initiative for students from low-income households.

June 2008–May 2010 (Tech Support related)   **Tech Support Agent**   **Bilateral**
          Bogota, Colombia

- Handled technical support inquiries via calls and emails, troubleshooting issues across multiple systems.
- Resolved complex technical issues whilst collaborating with other companies/ depts.
- Acted as a peer mentor, offering continuous support to newcomers and improving team collaboration.

Additional Certifications

- FreeCodeCamp: HTML/CSS   Sep 2023 – Nov 2023

Interests/Additional Information

- Code Institute hackathons. Participant in collaborative project: Discover Diwali.
- Watching coding tutorials and workshops on YouTube and frontendmasters.com
