Portfolio (Technical Projects & Labs) • GitHub Page • LinkedIn Profile

Executive Summary

Entry-level IT professional with CompTIA Network+ and Security+ certifications, transitioning into cybersecurity and IT support. Strong foundation in networking, system security, and troubleshooting, combined with hands-on experience using virtual labs and real-world technical problem-solving. Background in tech support and education, bringing clear communication, analytical thinking, and user-focused problem resolution. Currently expanding skills in cloud technologies and security operations.

Certifications

- CompTIA Security+ (Completed)
- CompTIA Network+ (Completed)
- CompTIA Cloud+ (In Progress)

Technical Skills

IT & Cybersecurity

- Networking: TCP/IP, DNS, DHCP, subnetting, VPNs (L2TP/IPSec), port management
- Security Operations: Log analysis, SIEM fundamentals, basic incident response, network monitoring
- Threats & Vulnerabilities: Brute force, SYN flood, command injection, DNS transfer & LM hash weaknesses
- System Hardening: OS and network device hardening, firewall configuration, access control, disabling insecure services
- Cryptography: Key pairs, digital signatures, PKI, certificate signing (CSR), encryption & hashing

Tools & Platforms

- Security Tools: Nmap, Nikto, OWASP ZAP, Metasploit, Wireshark
- Systems: Windows, Linux (Kali Linux), virtual machines
- Networking: Router configuration, VPN setup, firewall management
- Scripting & Automation: Basic Python, PowerShell

Systems & Infrastructure

- Virtualization & Containers: VM deployment, container fundamentals
- Identity & Access Management: User account management (Windows/Linux)
- Backup & Recovery: Backup strategies, archive bit, data sanitization
- Asset Management: Asset tracking and license management

Development Knowledge (Supporting)

- JavaScript, Python, React, Django, REST APIs

Security Lab Experience

- Simulated and analysed network attacks (e.g., brute force, SYN flood) in controlled environments and monitored abnormal traffic patterns
- Performed log analysis on Windows and Linux systems to support basic incident detection and response
- Conducted vulnerability assessments using Nmap, Nikto, and OWASP ZAP to identify exposed services and weaknesses

- Implemented defensive measures including firewall rules, system hardening, and secure configurations
- Configured and tested SIEM and File Integrity Monitoring (FIM) tools to monitor and detect system anomalies

Work Experience

Oct 2022–Present– **ESL Teacher – Idiomas Santa Ana** **Valladolid, Spain**

- Assessed and adapted digital exam preparation & learning strategies to meet diverse student needs.
- Utilized various digital platforms (Zoom, Bamboozle, Cambridge LMS) to deliver engaging lessons.
- Tracked student progress through data-driven quarterly reports, analyzing learning patterns and engagement metrics.
- Provided user support and troubleshooting for digital platforms, resolving access and technical issues.

Sep 2021–Jun 2022 – **ESL Teacher – The School** **Aranda de Duero, Spain**

- Collaborated in team meetings, projects and peer mentorship programs.
- Integrated interactive e-learning tools to enhance student engagement and language acquisition.
- Adapted quickly to remote learning during COVID, utilizing virtual classrooms, automation tools to maintain educational continuity.

Jan 2015–Jul 2021 – **English Professor – Manuela Beltran University** **Bogota, Colombia**

- Delivered both face-to-face and online courses, integrating educational technologies to enhance outcomes.
- Led weekly team meetings to assign project-prioritized tasks, ensuring efficient workload distribution and goal alignment.
- Collaborated with cross-functional faculty teams to implement a bilingual curriculum, contributing to course design and curriculum adaptation.
- Utilized tech-educational tools, including CANVAS and video recording software for remote learning during COVID, supporting a government-backed initiative for students from low-income households.

Jun 2008–May 2010 (Tech Support related) **Tech Support Agent – Bilateral** **Bogota, Colombia**

- Handled technical support inquiries via calls and emails, troubleshooting issues across multiple systems using a ticketing-style workflow.
- Resolved complex technical issues whilst collaborating with other companies/ depts.
- Acted as a peer mentor, offering continuous support to newcomers and improving team collaboration.

Education

Oct 2023–Nov 2024 **Diploma in Full Stack Software Development – *Code Institute*** *(UWS accredited)*

Jun 2019–Aug 2019 **CELTA (Cambridge Assessment English (UK))**

Collaborative Hackathon project – Discover Diwali Dec 2024 & Lost Souls Oct 2025

- Participated in Agile/Scrum-based team projects using GitHub version control workflows
- Coordinated tasks as Scrum Master, ensuring team alignment and timely delivery
- Contributed to full-stack application development in a collaborative environment

Languages

English (Native) • Spanish (Fluent)
